Summary of what the dashboard answers and why it matters

The project builds an interactive Excel dashboard that turns raw sales data into business-ready answers. The project walks through cleaning, processing, analysis, and dashboard design so you can reproduce each insight step-by-step.

Business Problem Statement:

Kritika store wants to create an annual sales report for year 2025. So that, Kritika can understand their customers and grow more sales in 2026.

Sample questions:

- Compare the sales and orders using single chart?
- Which month got the highest sales and orders?
- Who purchased more – men or women in 2025?
- What are different order status in 2025?
- List top 5 states contributing to the sales?
- Relation between age and gender based on number of orders?
- Which channel is contributing to maximum sales?
- Highest selling Category?

Once after creating dashboard you will able to share Business insight and final conclusion for the problem statement which help store for their growth in sales for coming year 2026.

Sample Insight:

- Women's are more likely to buy compared to men
- Maharashtra, Karnataka and Uttar Pradesh are most top 3 states
- Adult age group (30-49 years) is max contributing
- Amazon, Flipkart and Myntra channels are max contributing

Final Conclusion to improve Kritika Store Sales:

- Target Women customer of age group (**30-49** years) living in **Maharashtra, Karnataka and Uttar Pradesh** by showing ads/offers/coupons available on **Amazon, Flipkart and Myntra**.
